Students are expected to practice for 20-30 minutes each day at home according to the band handbook. This isn't *always* possible. Sometimes students might practice more on one day and not at all on another. The BEST routine is to practice at least a little EVERY day. So the grading policy for practice charts will be as follows:

90 + minutes for the week for an 'A'

75 – 89 minutes for the week for a 'B'

60 – 74 minutes for the week for a 'C'

45 – 59 minutes per week for a 'D'

30 – 44 minutes per week for a 'F'

Less than 30 minutes per week for no credit/zero.

Practice charts are due MONDAYS for full credit and will go down a letter grade each day they are late.

How many minutes total did you practice? _____ Parent Initial _____ Student Full Name (please print neatly) _____
